

# Volunteers Needed!

## Master Plan Implementation Committee

The Groton Planning Board invites you to help us assess our progress as we pursue the goals of the 2011 Comprehensive Master Plan with its overarching theme of sustainability. The Plan has a 10-year lifespan.

We will ask the Committee to evaluate our progress in achieving objectives within each Master Plan Element, to prepare a status report to the Planning Board and make any recommendations it deems appropriate.

### Master Plan Elements

- Natural Resources, Water and Energy
- Cultural and Historic Resources
- Open Space and Recreation
- Transportation
- Land Use
- Housing and Residential Development
- Economic Development
- Community Facilities

### To volunteer or to learn more, please contact:

Takashi Tada

Land Use Director/Town Planner
