

## About the Author and the Data:

Hello! My name is Chris Huber. I am a member of Troop 1, West Groton, and I coordinated the compilation of this data as part of my Eagle Project. This table and its accompanying map detail the information on the headstones of approximately 100 Civil War Veterans that are buried in the Groton Cemetery.

The data collection was conducted in the summer of 2013. The spreadsheet was made with Microsoft Excel, and the map with Google Map Maker. All in all, my helpers and I put in over 200 hours of work into this Eagle Project!

Thanks to everyone who helped out with this project, Scouts and adults. Special thanks to **Ms. Debbie Beal Normandin**, trustee for the Groton Cemetery Association, for her assistance and especially her map, and **Mr. John Dennis**, who was my fantastic Project Coach.

Most importantly, thanks to **Ms. Eleanor Gavazzi** for all her invaluable guidance regarding my project. She answered all my little questions, and her knowledge, persistence, and research were all invaluable to me. I couldn't have done it without her.

Look at the map with the link below. It has clickable points that expand with information on each headstone:
